BALTIMORE COLLEGE OF DENTAL SURGERY
DENTAL SCHOOL
UNIVERSITY OF MARYLAND AT BALTIMORE

EARLIEST BEGINNINGS:

On 1 February 1840, a charter for the establishment of a dental college which could confer the degree of "Doctor of Dental Surgery" was granted to a faculty consisting of four members. The first faculty meeting on 3 February 1840 saw the election of Horace H. Hayden, M.D. as President and Chapin A. Harris, M.D. as Dean of the College.

Horace Hayden, a carpenter and architect by trade, practiced dentistry in Baltimore in 1802 after apprenticing with several mentors. His interest in physiological and pathological research led him to earn his M.D. degree (honorary) from the Jefferson College of Medicine in Philadelphia in 1837. As a lecturer at the University of Maryland School of Medicine in dental topics, he realized the need for systematic formal education in dentistry. With the help of Dr. Harris, an energetic and resourceful man some forty years his junior, Dr. Hayden set about with the task of establishing a curriculum for dental study.

Recruiting students, however, proved to be a challenging undertaking. With no faculty per se, achieving recognition and notoriety were difficult indeed.

First lectures were held in churches and other high visibility locations. In 1842, the first location to be called the dental college was located at 13-15 South Sharp Street, a leased building with a stable loft in its rear used for the dissections of cadavers, a practice frowned upon by society at that time. Five students formed the first class and two students formed the first graduating class in 1841.

TUITION:

1840 — $30 — lecture fee
$5 — matriculation fee
$30 — diploma fee
1986 — $4,509 — resident fee
$10,173 — non-resident fee

ADDITIONAL FIRST YEAR EXPENSES:

1840 — living expenses
1986 — $3,554.25 = living expenses

STUDENT BODY:

1840 — 5
1986 — 112 plus three other classes, dental hygiene classes, post-graduate students in nine specialties, totalling some 600 individuals.

TYPICAL GRADUATE:

1840 — R. Covington MacKall, age at graduation — 18, background — after becoming the first graduating dentist from the Baltimore College of Dental Surgery, Dr. MacKall went to St. Louis to set up his practice. Competing with three popular local practitioners proved to be too much for him and he later attended medical school in order to earn a living.
1986 — Average age at graduation — 27 and an undergraduate degree with a required science curriculum.

EVOLUTION OF THE BALTIMORE COLLEGE OF DENTAL SURGERY DENTAL SCHOOL UNIVERSITY OF MARYLAND AT BALTIMORE

Introductory lectures were first given in 1840 at the Baltimore College of Dental Surgery, in this Baptist church located on Calvert Street between Lexington and Saratoga Streets. The public was invited and one of four faculty members spoke on his topic one night a week. Even though the school had no physical structure at this time, buildings such as these provided high visibility and kept the dental college a reality.

PROCLAMATION

The Class of 1986

HONORARY CLASS PRESIDENTS

DIANE CURLEY

LIGOURI SHINNAMON

Each year it is tradition that the senior class selects an honorary class president. The selection is made on the basis of contributions made by an individual who, beyond his or her official duties, has helped the members of the senior class in the quest for graduation. The Class of 1986 has had the good fortune of having many individuals contibute to its success. We are pleased and honored to recognize two of these individuals. The commitment, guidance and support shown by Diane Curley and Ligouri Shinnamon over the past two years has touched each member of our class. Thank you for caring and dedication.

CONGRATULATIONS GRADS

KNOWN

PROFILES
CLASS OF 1987

FIRST ASSEMBLY: Davidge Hall, August 28, 1983

CONTINGENTS: Originally 112 candidates, number highly variable.

GOALS: To somehow graduate . . . To somehow organize our instrument kits before graduation . . . To somehow recover from Dr. Halpert's freshman lectures . . .

DISTINGUISHING CHARACTERISTICS: Wide range of ages . . . Extremely involved class . . . High attrition rate (in all the wrong places) . . . Inability to impress a certain Remo instructor . . . Most Dental Deli employees . . . First class to experience the full brunt of BCDS austerity program . . . Double secret identification numbers . . . Most Navy candidates . . . First class to institute the Question Committee . . .

MOST FREQUENTLY ASKED QUESTIONS: (YEAR 1) What's a vis-à-vis? Are BDS answers posted yet? Does my four digit number start from the left or the right? Is next year easier?; (YEAR 2) Who's correcting the practical? Is today bagel day? What am I supposed to do with five pounds of custom tray material? Is next year easier?; (YEAR 3) What does DOCS stand for? What's the code for a work up? Is anything under my control this year? Is next year easier?

MOST MEMORABLE MOMENTS: Sophomore picks . . . Dr. Ruth . . . Any of Dr. Van Hassell's Conjoint lectures . . . The anonymous letter . . . Playing pass the stick in Radiology remediation . . . Dr. Crossley's burning book routine . . . The gorilla . . . Dean Reese saying "This year is definitely the hardest." . . . The Snuff Patch Blues Band . . . Dr. Ed Grimley . . . Remediation 1985 — free at last — maybe . . .

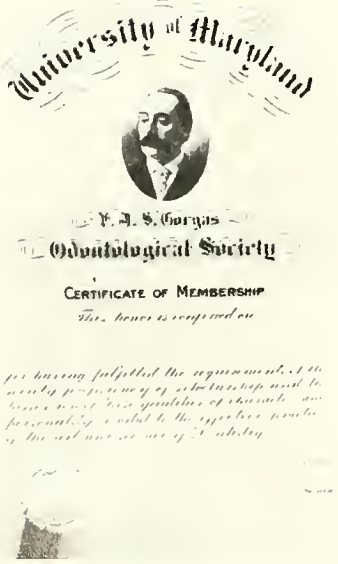
In order to be selected as a candidate for membership in Who's Who Among Students in American Universities and Colleges, a student must be an outstanding leader, scholar, citizen, and participant in both educational and extracurricular activities.

To be chosen for this honor a student is first recommended by the University and is then voted on by the National organization.

GORGAS ODONTOLOGICAL HONORARY SOCIETY



The Gorgas Odontological Honor Society was organized in 1915 as a student organization, and later it was changed to an honorary dental student society with scholarship as a basis for admission. The society is named after Doctor Ferdinand J. Gorgas, a pioneer in dental education and a great contributor to dental literature; it was with the idea of perpetuating his name that the society adopted it.

The society makes for its objective the furtherance of dental knowledge by discussion and lectures. Gorgas is comprised of junior and senior members whose scholastic endeavors have placed them in at least the top third of their class.

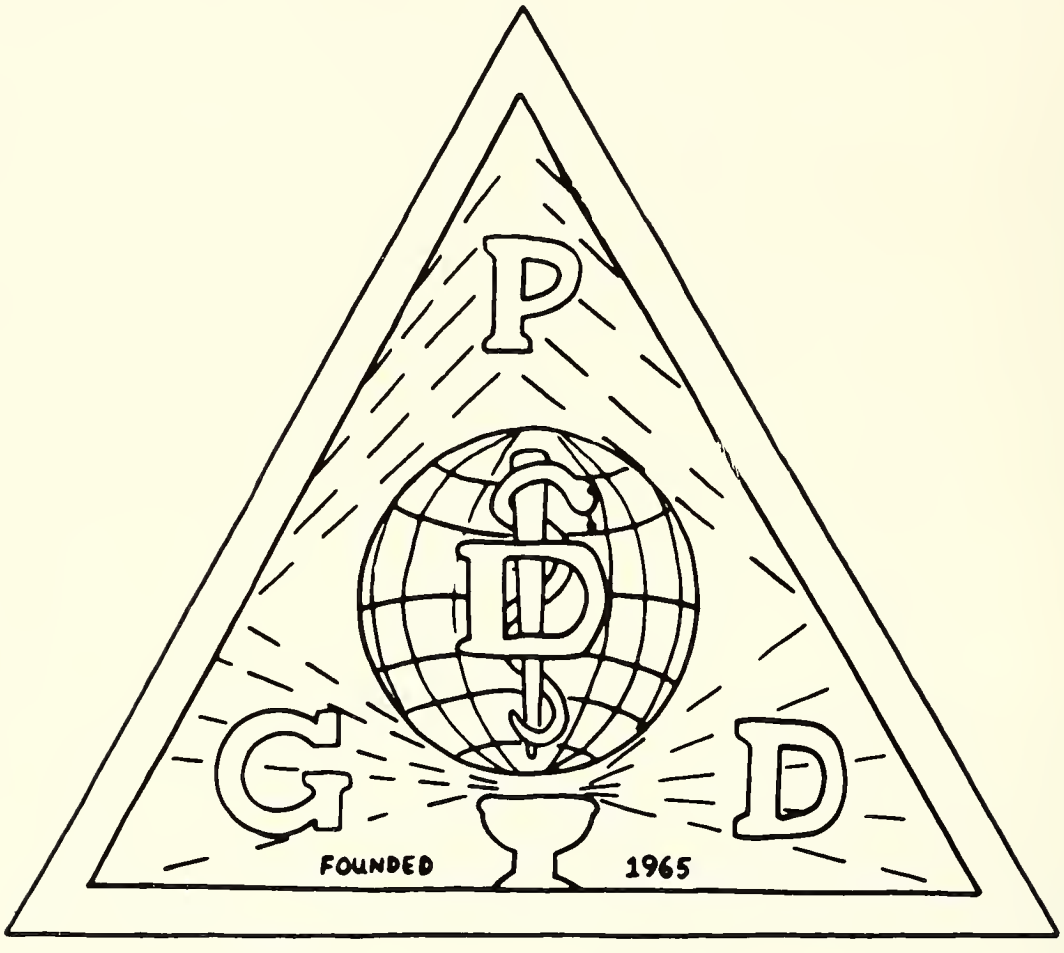
GAMMA PI DELTA PROSTHODONTIC HONORARY SOCIETY



GAMMA PI DELTA

Gamma Pi Delta was chartered in 1965 as an honorary student dental organization with scholarship and interest in the field of Prosthetic Dentistry as a basis for admission. The prestigious honor society requires maintenance of at least a "B" average in the diciplines of both Fixed and Removable Prosthodontics for all four years of dental school.

This year Gamma Pi Delta had four meetings at various restaurants in Baltimore. Special guest speakers were present at each dinner with their goals directed toward stimulating the creative interest of prosthodontics in general dentistry.

XI PSI PHI

XI PSI PHI

The Eta chapter of Xi Psi Phi made certain that their traditions of prestige and excellence were maintained throughout 1986. Events such as Limo Races 2 and the annual summer pilgrimage to Dewey Beach bore testimony to the high professional standards that have long been associated with ZIP. Sink Nite provided ZIP's elite circle of upperclassmen a chance to participate in a rite shrouded in mystery and antiquity: the selection of those individuals lucky enough to be invited to join the ranks of ZIP and earn the coveted title of "Zipper." This year ZIP also made great strides in the research community with such noteworthy contributions as . . . "Savage 99," "Dentistry in the Combat Environment" and "Interpersonal Interaction and Behavior among Dental Hygiene Students." It is hoped that ZIP will continue its role as a model dental fraternity at the University of Maryland for many years to come.

ALPHA OMEGA

ALPHA OMEGA

Alpha Omega is an international dental fraternity founded in the early 1900's. Since then it has evolved into a well-respected part of the dental community. The fraternity is represented by a triangle whose base is Judaism and sides are fraternalism and professionalism.

Zeta Mu, our local chapter with 70 members, had a stellar year under the leadership of President Bryan Siegelman. The Fraternity received the Chapter Efficiency award which is awarded to the outstanding chapter in all of Alpha Omega.

The yearly calendar included a variety of social, academic, and professional events, many of which were done in conjunction with our Alumni Chapter.

We are proud that the fraternity is able to create a brotherhood and an environment that promotes success and goodwill for all of its members. Good luck to the Class of 1986 in all their pursuits.

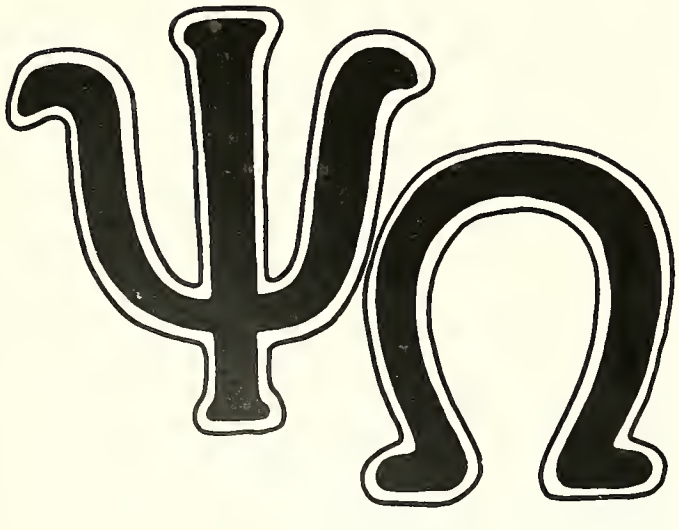
PSI OMEGA

PSI OMEGA



The Psi Omega Fraternity was founded at the Baltimore College of Dental Surgery in 1892 by four members of the class of 1894. The Alpha Chapter at the University of Maryland, as it is known today, strives to continue in the pursuit of the basic concept of the Fraternity's beginning ninety-four years ago — to offer a stimulating source of diversion from the many hours of dental education spent in the classroom, laboratory and clinic. Activities this past year have included fun and sun in Nags Head, N.C., swimming and beach parties, Cocktail Ball at the prestigious U.S.F.&G. campus, initiation, and Christmas Party.

The seniors, who have spent the past four years building friendships, we will surely miss. We look forward to future times together as Psi Omega alumni. Good luck to all in their future endeavors!

The meeting to organize the Southern Dental Association was held in Atlanta, GA on July 28, 1869, at which time a number of southern dentists assembled in the city hall of Atlanta for the express purpose of forming that association.

This organization was later renamed the National Dental Association. This organization serves the needs of minority dentists until this day. In Maryland the Baltimore Dental Society finally voted to accept Negro dentists as members beginning in 1960.

In 1972 a group of dental students decided to form a student branch of the National Dental Association, the Student National Dental Association. One of the people instrumental in this pioneering effort is Dr. Tony Maddox (the first black graduate of BCDS).

The Baltimore Chapter of SNDA is the first chapter to establish a scholarship fund. This fund, named the Robert T. Freeman/Martin Luther King Jr. Scholarship Fund, set a precedent for the other 30 chapters.

The current officers are Bertrand Bonnick (President), Ann Linton (Vice-President), Valli Meeks (Treasurer), Pat Bell (Secretary), Debbie Ollivierre (Parliamentarian), and Leslie Grant (National Vice President).

AAWD was founded 64 years ago when women were not eligible to join the ADA. Today the AAWD meets concurrently with the ADA. There are about 1000 national members, 58 of which are here at the University of Maryland Dental School Chapter.

STUDENT AMERICAN DENTAL HYGIENISTS' ASSOCIATION

SADHA is the dental hygiene students' professional organization. As members of this organization we hope to gain an understanding of our profession and our role in the communities we will serve. Our goal this year was to become recognized in the Dental School, as well as on the UMAB campus. To reach this goal we became involved in different activities, such as revising our Constitution and Bylaws, forming a dental hygiene liaison program with dental students, and participating in the USGA. SADHA is also involved with community/public health activities, fundraising, spring banquet plans and professional growth.

Student participation in SADHA insures that the University of Maryland Dental Hygiene program graduates will be active and vital participants of the dental health care team and their local American Dental Hygienists' Association.

The Academy of General Dentistry is a national organization whose primary purpose is to maintain high standards for the practice of general dentistry. It does this mainly through continuing education and legislative efforts. The University of Maryland student chapter promotes student membership and involvement as early as freshman year. Numerous guest lecturers speak to the group during the year, sharing information which enhances that of the regular curriculum. The student chapter enjoyed a successful year, recruiting over fifty members.

MESSAGES FROM . . .

EDITOR IN CHIEF

A chapter in each of our lives is about to come to an end soon. We have spent the majority of our last four years striving for a goal we will soon realize. There were many hurdles and obstacles to cross, but we made it through together. It isn't so much the events of the last four years that I recall but the people with whom I have shared those events. It's the people who made it a special experience I will not soon forget. From our classmates, to the faculty, administration, and staff, I have tried to capture the different personalities, characters and essences of the people who have played such a big role in our lives during the past four years. It is my hope that in years to come, when each of you looks back at this book, you will remember the people as I will. I would like to dedicate this yearbook to all my classmates, to my staff who did a terrific but thankless job, and last but not least to my parents.

Simon J. Adir

SENIOR EDITOR

Using the theme "Profile", we intended The MIRROR '86 to accurately and completely reflect all aspects of the past year at B.C.D.S.. In retrospect, I realize what a naive and lofty goal this was. It is impossible, on 170 pieces of paper, to characterize all that B.C.D.S. is for everybody. Nevertheless, I hope that twenty years from now each of us can pick up this book and have it remind us of what B.C.D.S. meant. . . many friendships, dedicated instructors, endless hours of lab. work, favorite patients, interesting courses, not-so-interesting courses, the DOCS system. . . I hope that this has been accomplished.

I want to thank my wife, Connie, for her constant, selfless and unquestioning support and love during the past seven months. I want to thank my son, Brandon, who had to compete with a yearbook and lab work for his father's time. I want to thank everyone at school who has given an encouraging "good job" or "thanks" to those of us working on the yearbook. It made our task easier. Lastly, and most importantly, thanks and all glory go to my Lord Jesus Christ, who is a constant and unchanging source of strength and peace which surpasses all understanding.

Investing in the Future.

...Patterson's history of progress

Patterson Dental Company grew from a proud heritage begun in 1877, when young M. F. Patterson opened a dental supply counter in his Milwaukee drug store. Soon thereafter, he relocated the company to the growing Minneapolis area, where it is headquartered today.

Patterson's history is characterized by progressive company growth. By the 1960's the company had expanded to 36 branches located primarily in the Midwest, Southeast and West. Since then, Patterson has continued to grow and today employs more than 1500 people in over 90 locations... creating a national distribution network united by advanced computer technology.

...growth for tomorrow

Patterson Dental Company is committed to the future of dentistry... we're planning now for the dentistry of tomorrow.

Toward that goal, we've invested in management technology and human resources: a national computer network, inventory and management systems, office planning and design, technical repair service, recruitment and training, and professional education programs for dentists and staff. Additionally, Patterson has created a centralized institutional bidding department to handle the specialized needs of dental facilities in Veterans' Administration hospitals, military bases, dental schools, and government clinics.

We strive to stay at the forefront of the dental industry, meeting the complex needs of tomorrow with innovations that begin today.

What are you looking for in equipment financing?

- ☐ A. Low interest rates
- ☐ B. Tax Shelter
- ☐ C. Flexible Terms
- ☐ D. Fixed Rates
- ☐ E. Simple Interest
- ☐ F. Open end line of credit
- ☐ G. All of the above

If you have checked ☒ G., then you've checked HPSC.

HPSC is the financing services subsidiary of Healthco International.

HPSC is the only dental dealer financing company.

HPSC is the only financing company that deals exclusively with the Dental Profession.

HPSC offers 15 different programs to the dentist.

HPSC believes that "The right financing is as important as the financing itself."

Because the financing is actually provided through Healthco and HPSC, you have the flexibility of:

a. Changing payments
b. Changing terms
c. Adding equipment
d. Prepayment privileges **without penalty** and **below prime interest rates**, fixed for the term of the loan.

You owe it to yourself to contact HPSC before making a commitment for equipment financing. Let us tailor a program to your personal needs.
